

PRESS RELEASE

PT TRANSKON JAYA TBK WILL BE A SOURCE AND REPRESENT FOR INDONESIA IN UNITING BUSSINES: SUSTAINABILITY IN ASEAN

Balikpapan, 30 May 2022, PT Transkon Jaya Tbk, represented by Mr. Lexi Roland Rompas as the Company's President Director, received the opportunity from the United Nations Global Compact to become one of the resource persons who will represent Indonesia in the Uniting Bussines: Sustainability in Asean event which will be held in Bangkok, Thailand on 2 June 2022, where Mr. Lexi Roland Rompas will deliver issues related to gender equality. This opportunity is the result of PT Transkon Jaya Tbk's commitment to contribute to realizing the achievement of the 5th SDG, namely "Achieving gender equality by empowering all women," which is realized through the recruitment of women mechanics through the Training Development Program. As it is known that in the current era, it is still rare to find female mechanics who are entrusted to work in the automotive industry, considering that the automotive industry is an industry that is closely related to the dominance of the male role. In addition to female mechanics, the company also recruits female workers in the Welding & Fabrication Department, which shows that, although men mostly do welding iron or what is commonly referred to as welding, PT Transkon Jaya Tbk, together with existing female workers, prove that the work is done not only for men. So PT Transkon Jaya Tbk wants to be a company that can provide access for women to be able to use their skills even in fields that are closely related to masculinity without seeing gender as an obstacle.

Uniting Business: Sustainability in ASEAN (UBL ASEAN) is a forum organized by the United Nations Global Compact in collaboration with the Global Compact Local Networks of Thailand, Indonesia, Philippines, Singapore, Malaysia, and Brunei. This forum is a one-day forum that will bring together local and global community leaders from business, civil society, Government, Global Compact Local Networks, and the United Nations to inform, inspire and catalyze local and regional solutions to advance policies that not only promote growth but also accelerate progress towards the Sustainable Development Goals and the Paris Agreement in the ASEAN region. UBL ASEAN will gather virtually more than 10,000 leaders from business, government, civil society, and the United Nations who will

gather to discuss global environmental issues and how these can be followed up to encourage the achievement of the Sustainable Development Goals (SDGs) and as representatives of PT Transkon Jaya Tbk and one of the representatives of Indonesia, Mr. Lexi Roland Rompas will be present in person at the UN Conference Center, Bangkok, on June 2, 2022.

The presence of PT Transkon Jaya Tbk as one of the speakers who will represent Indonesia in the Uniting Business: Sustainability in Asean event is an excellent opportunity for PT Transkon Jaya Tbk to be known more globally. It is hoped that in the future, apart from being recognized as a company that contributes to achieving gender equality and empowering women, the company will also be better known through various programs and company contributions that positively impact society and the environment at large.
