

PRESS RELEASE

Business Expansion on a Large Scale, PT Transkon Jaya Tbk Records Achievement of a Contract Value of 1 Trillion Rupiah in 2022

Balikpapan, 27 February 2023, The journey of PT Transkon Jaya Tbk in 2022 was closed with a positive performance, where until the end of 2022, the company managed to record the achievement of a contract value of more than 1 trillion Rupiah, which is a concrete manifestation of the various kinds of innovations and transformations that the company has carried out, including business expansion in creating new markets, expanding the scope of operational areas, expanding business facilities, as well as adding human resources to support the company's business development process.

In terms of business expansion, during 2022, PT Transkon Jaya Tbk managed to buy more than 700 units of new vehicles, so currently, there are 3,156 units of the company's vehicles operating at all of the company's operational points in Indonesia. Then along with the addition of the number of units, the scope of the company's operational area also increased, where the company managed to add several new points on the island of Kalimantan and the Eastern Indonesia Region, one of which was the Province of Gorontalo. The company is optimistic about the addition of a new point in Gorontalo Province, considering the mining potential in Gorontalo Province is quite large, especially for gold and other minerals. The business expansion was also carried out by the company by establishing two subsidiaries in early 2022, each of which is engaged in the business of providing IT equipment services under the name PT Multinet Perkasa Indonesia and a company with outsourcing business under the name PT Borneo Sentana Gemilang.

In addition to business expansion to boost the company's revenue, PT Transkon Jaya Tbk also continues to improve in implementing a better management system. Where in 2022, the company succeeded in obtaining three ISO certifications, including ISO 14001: 2015 concerning Environmental Management, ISO 45001: 2018 concerning OHS Management, and ISO 37001: 2016 regarding the Anti-Bribery Management System so that until now, PT Transkon Jaya Tbk

already has four ISO certifications, including ISO 9001: 2015 regarding the Quality Management System which was obtained by the company in 2021.

The company also actively carries out its commitment to align its business with providing benefits to the community during 2022 by trying to fulfill its responsibilities towards stakeholders, both internal and external, so that the company actively carries out its commitment to align its business with providing benefits to the community, which has been proven by the company's achievement of several awards in 2022 consisting of five awards in the field of corporate social responsibility and community development, and three other awards related to corporate governance.

In 2023, in order to continue to grow a larger business scale, the company's focus will still remain on business expansion in terms of expanding the coverage of operational areas and expanding the scope of industrial types as well as adding the proportion of bus rentals. In addition, the company will begin to expand in the West Indonesia Region, and of course, it will focus even more on reaching the nickel industry, where to expand into the nickel industry itself the company has carried out several strategies to maximize this expansion, starting from participating in the nickel industry seminars and trade shows, to establishing a representative office in Morowali Regency which is one of the largest nickel producing areas in Indonesia
